

Project Sheet: Inspiren

****Project:** Smart Medical Device Installation — *Inspiren***

****Role:** Installation Technician (Crew-based)**

****Date:** 2020**

Scope

Collaborated with Inspiren to install and configure smart health-monitoring devices in healthcare settings, ensuring functionality and compliance for patient-care environments.

Problem / Diagnosis

- Hospitals and care facilities required ****rapid deployment**** of IoT devices in patient rooms.
- Needed to balance ****technical accuracy**** with ****strict compliance and safety standards****.

Tools & Methods

- Installed and paired ****Inspiren proprietary devices**** for patient monitoring.
- Followed crew manager direction for ****compliance verification**** and system sign-off.
- Used Inspiren's ****proprietary app**** to test connectivity and ensure device reporting.
- Coordinated with lead to confirm customer-facing workflow was documented.

Deliverables

- Dozens of units installed across multiple facilities.
- Installation checklists updated and verified through Inspiren's QA process.

Outcomes

- Achieved zero repeat service calls during deployment.
- Ensured compliance with HIPAA-aligned technical protocols.
- Strengthened capacity for future IoT/healthcare integrations in portfolio.
